

2015-2016 Distinguished Lecture Series

Andrei Okounkov

Professor of Mathematics
Columbia University

Public Lecture

Quantum groups and quantum K-theory

Wednesday, May 11, 2016

4:00-5:00pm

Rowland Hall, Room 306

Reception at 3:30pm in RH 408

Mathematics Colloquium

On some q -difference equations with remarkable monodromy

Thursday, May 12, 2016

4:00-5:00pm

Natural Sciences II, Room 1201

Reception at 3:30pm

Andrei Okounkov is a Professor of Mathematics at Columbia University. He received his PhD from Moscow State University in 1995. He has previously held faculty positions at Princeton and UC Berkeley. He received a Sloan Fellowship in 2000 and a Packard Fellowship in 2001. In 2004, he received the European Mathematical Society Prize. He was an invited speaker at the International Congress of Mathematicians in 2006 and was awarded the Fields Medal for his contributions to bridging probability, representation theory and algebraic geometry.
